Experience

Internship

Web Developer   Jul 2025– Present (Currently pursuing)

BITS – Bitmap IT Solution Pvt. Ltd.   Berchowk, bharatpur

(Laravel, SQL, JavaScript, CSS)

- Designed and developed dynamic websites and web applications tailored to client needs.
- Utilized Laravel for backend development, SQL for database management, and JavaScript/CSS for interactive and responsive user interfaces.
- Gained practical experience in full-stack web development within a professional IT environment.

Key Projects

Ecommerce Website

Designed and implemented a full-featured e-commerce solution, including a dynamic product catalog, shopping cart, and secure checkout process. Successfully integrated Stripe API for seamless and secure payment processing. Developed a robust order management system and customer dashboard to handle inventory and sales data. (Technologies: Laravel, JavaScript, Tailwind CSS)

Car Rental System

Built a modern car rental platform complete with vehicle fleet management, a robust booking system, and a user-friendly customer dashboard. Ensured the system was fully responsive and visually appealing using Tailwind CSS. Implemented front-end interactivity and payment processing functionalities. (Technologies: Laravel, JavaScript, Tailwind CSS)

Bubble Best Platform

Contributed to the development of an advanced service platform for a leading painting solutions company. Designed and implemented interactive features to streamline service requests, enhance customer engagement, and deliver an optimal user experience. (Technologies: : Laravel, JavaScript, Tailwind CSS).
